GRE Math Review - ETS Home

An important note: although I do like books like the Manhattan Prep 5-lb GRE practice book for repetition with math concepts, it's much more important to eventually gain as much experience as possible solving ETS-written math questions, because ETS writes the GRE, and because other companies' questions don't imitate ETS's logical reasoning and shortcut components to math questions.

You're Gonna Get This GRE Math Question Wrong.

Let's take a look at an example of a GRE math problem now. "How many solutions will the equation 'x^2 - 2x + 1 = 0 have?'" Now a lot of test-takers look at the question and jump to the conclusion that the answer is B.(2) Since you're only reading this, you're probably not too panicked right now.

GRE Math • How to score 170 with expert GRE Tips ...

Word problems on the GRE Math test cover a wide range of topics, from algebra to geometry to trigonometry. They require some strategy because before you plug in numbers, you first have to decide which equations or formulas to use to find your solution. Read the word problem carefully and make sure you know exactly [...]

Word Problems on the GRE Math Test — Practice Questions ...

Explanation: . Note that there are 16 total marbles. A is simply a set of sequential events. On the first, you have 10/16 chances to draw a red. Supposing this red is not replaced, the chance of drawing a second red will be 9/15; therefore, the probability of A is (10/16) * (9/15) = 0.375.

Probability - GRE Math

However, unlike the other math problems on the GRE where you choose from 4 or 5 provided choices, the numeric entry questions require you to provide the answer to the question using the keyboard -- you input your answer into either a single box or into two boxes if the answer is in the form of a ratio.

GRE Math Question Types - My GRE Tutor

The easiest way to do this is to take the intersection and add to it the number of CS-only and math-only students: 600 + 200 + 400 = 1200. This number represents the total number of students that have either a math or CS major (that is, the number of students in the union of the two sets). This leaves 1500 - 1200 or 300 students.
