What Value Creation Will Look Like in the Future

We begin with a generic model of value, where we relate value to expected cash flows in the future and consider all of the potential routes that are available for a firm to create value.

Value Creation and Enhancement: Back to the Future

According to our latest report on the private equity (PE) industry, it's value creation. This is a laudable goal—but when 70% of survey respondents say they turn to cost-cutting to achieve it, it's no wonder that pundits and politicians see value creation as code for downsizing efforts and closing plants.

Private equity, value creation and the future of work: PwC

For organizations, future service technologies are growing in importance and will become a crucial means to survival. It is clear that future service technologies will increase the opportunity to reduce costs and create efficiency, but it is not equally clear how future service technologies enable value creation for customers and users.
